

Comment

benefit:

- * receiving one mail if run select command once
- * creator will not receive mail from A if rq was ~~move~~ move to another group from A

combined rq and creator

"delete old one" and add a new one

~~if we have~~
~~old opt then~~
~~just unselect~~

new comment

from =

- (unselect)
- 1) old rq-id and creator from the description (select & select --move)
- 2) old rq-id and creator from the description + new sr from backlog
