Additional arrangements are always possible and we look forward to discussing options that meet your specific needs.

Financial support from sponsors is invaluable and crucial for the success of the event. While the countless hours extended by volunteers to orchestrate the event provide the atmosphere and framework for the conference, commercial sponsorship provides the necessary financial backing that allows us to allocate funds for the venue, create marketing material, secure keynote speakers, and assist those that contribute to FOSS with some financial support to attend the conference.

Sponsors can participate in the Conference by having a booth, and help organize social events to add to both the conference atmosphere and visibility, as well as their own.

The openSUSE community is a global community contributing to the openSUSE project in an effort to promote the use of openSUSE, Linux, and FOSS worldwide. Development in all areas relies on voluntary contributions. Friendly interaction and open collaboration is encouraged in an environment of cooperation, across cultural backgrounds and different levels of expertise, where innovation flourishes and the boundaries of FOSS are expanded.
