

## Issues

| #      | Project      | Subject   | Status   | Assignee      | Target version | Due date | Related issues                       |
|--------|--------------|---|----------|---------------|----------------|----------|--------------------------------------|
| 44306  | openQA Tests | [qam] test fails in ant due to com.sun.tools.javac.Main not being on the classpath                  | Closed   | geor          |                |          | Related to #44453                    |
| 71974  | openQA Tests | [qam][ant] test fails in ant  | Resolved | geor          |                |          |                                      |
| 91899  | openQA Tests | [qe-core] 15SP2 QU - An error occured during the installation (ppc64le )                            | Resolved |               |                |          |                                      |
| 80360  | openQA Tests | [qe-core] Reboot gnome through mouse clicks on all products   | Resolved | geor          |                |          |                                      |
| 96680  | openQA Tests | [qe-core] s390qa102.qa.suse.de zfcf issue   | Resolved | geor          |                |          | Related to #96296                    |
| 81044  | openQA Tests | [qe-core][qem] Add check for unreleased container images  | Resolved | geor          |                |          |                                      |
| 78296  | openQA Tests | [qe-core][qem] test fails in install_update   | Resolved | tjyrinki_suse |                |          |                                      |
| 88648  | openQA Tests | [qe-core][qem][systemd] qa_test_systemd fails in check-lvm2-lvmetad and check-named                 | Resolved | geor          |                |          |                                      |
| 88597  | openQA Tests | [qe-core][qem][systemd] qa_test_systemd fails in rc-local service test for sle15+                   | Resolved | geor          |                |          |                                      |
| 95611  | openQA Tests | [qe-core][samba_adcli] test fails in samba_adcli in s390x - adcli join cannot find geeko.com domain | Workable |               |                |          | Related to #96513                    |
| 96980  | openQA Tests | [qe-core][samba_adcli][epic] Tracker for samba_adcli failures                                       | Workable |               |                |          |                                      |
| 96983  | openQA Tests | [qe-core][sporadic][samba_adcli] adcli joining domain fails   | Workable |               |                |          |                                      |
| 96986  | openQA Tests | [qe-core][sporadic][samba_adcli] net ads join / leave fails   | Workable |               |                |          |                                      |
| 96513  | openQA Tests | [qe-core][sporadic][samba_adcli] wbinfos fails  | Workable |               |                |          | Related to #96512, Related to #95611 |
| 89335  | openQA Tests | [qe-core][systemd] qa_test_systemd fails in check-unit testcase                                     | Resolved | geor          |                |          |                                      |
| 72037  | openQA Tests | [yast][security][qem][shim] Enable shim testing on baremetal  | Feedback | hrommel1      |                |          |                                      |
| 99603  | qe-yast      | svirt-xen-hvm jobs entering emergency mode in first boot  | Rejected |               |                |          |                                      |
| 99180  | openQA Tests | test fails in scc_registration in QR 15-SP3   | Resolved | geor          |                |          |                                      |
| 105437 | qe-yast      | [Epic] Refine our testing of multipath  | Workable |               | Current        |          |                                      |
| 102260 | qe-yast      | [Timebox: 16h] Investigate composition over inheritance for widget attributes                       | Closed   | JERiveraMoya  | Current        |          | Related to #100904                   |
| 114730 | qe-yast      | [Timebox: 16h] Investigate which job results block approval from qam-openqa review group            | New      |               | Current        |          |                                      |
| 109452 | qe-yast      | [Timebox: 8h] Investigate script_output failure in validate_addon_extension_repo_*                  | Rejected |               | Current        |          |                                      |
| 103704 | qe-yast      | [timebox:8h] Investigate failure in ibft - no /var/log/YaST2/mkinitrd.log                           | Closed   | geor          | Current        |          |                                      |
| 99567  | qe-yast      | aarch64 job takes more than 2h and times out  | Rejected |               | Current        |          |                                      |
| 105440 | qe-yast      | Add new ZFCP devices that appear over 0.0.fc00 channel  | Resolved | amanzini      | Current        |          |                                      |
| 106047 | qe-yast      | Add no fatal flag to "verify_*" modules   | Closed   |               | Current        |          |                                      |

| #      | Project               | Subject   | Status      | Assignee     | Target version | Due date | Related issues     |
|--------|-----------------------|---|-------------|--------------|----------------|----------|--------------------|
| 99570  | qe-yast               | Beta distribution popup appears after access_beta_distribution  | Rejected    |              | Current        |          |                    |
| 111458 | qe-yast               | Create a small cli/script to help debugging failures with maintenance updates                               | Resolved    | rainerkoenig | Current        |          |                    |
| 103320 | qe-yast               | Create new test module for DASD disk filtering  | New         |              | Current        |          |                    |
| 105449 | qe-yast               | Create new test module for testing multipath  | Resolved    | amanzini     | Current        |          |                    |
| 105070 | qe-yast               | Document Widget abbreviations   | Closed      | rainerkoenig | Current        |          |                    |
| 114682 | qe-yast               | Fix HDD name matching in mru-iscsi maintance update jobs  | Resolved    | tinawang123  | Current        |          |                    |
| 108803 | qe-yast               | Fix key navigation in yast2 snapper ncurses test  | Rejected    |              | Current        |          |                    |
| 99267  | qe-yast               | Improve validate_multipath module   | Closed      | geor         | Current        |          |                    |
| 105978 | qe-yast               | Investigate kex_exchange_identification error in s390x-kvm  | Rejected    |              | Current        |          |                    |
| 105975 | qe-yast               | Investigate disk Input/output error on ppc64le-hmc  | Rejected    |              | Current        |          |                    |
| 99573  | qe-yast               | Investigate failure of LVM activation   | Rejected    |              | Current        |          |                    |
| 99600  | qe-yast               | Investigate System Role page not loading  | Rejected    |              | Current        |          |                    |
| 101908 | qe-yast               | Investigate test failure in accept_default_part_scheme  | Closed      | JERiveraMoya | Current        |          |                    |
| 101903 | qe-yast               | Investigate test failure in integration_services  | Rejected    |              | Current        |          |                    |
| 99555  | qe-yast               | Investigate x11_yast pattern being installed unexpectedly   | Closed      | JERiveraMoya | Current        |          |                    |
| 105972 | qe-yast               | New version of nvme package causes nvme_checks module to fail   | Rejected    |              | Current        |          |                    |
| 104580 | qe-yast               | OKStopPopup does not appear after performing installation   | Closed      | geor         | Current        |          |                    |
| 103718 | qe-yast               | Select disk with YuiRestClient instead of using encrypt_lvm_simple_pwd                                      | Closed      | oorlov       | Current        |          |                    |
| 107749 | qe-yast               | Send the correct number of keys in send_key_until_needlematch   | In Progress | amanzini     | Current        |          |                    |
| 108758 | qe-yast               | Wait for extensions and modules registration  | Closed      | rainerkoenig | Current        |          |                    |
| 94600  | QA                    | [tools][mtui] Communicate reduced visibility of openQA incident related coverage in log                     | New         |              | future         |          |                    |
| 102167 | openQA Infrastructure | Disk monitoring for s390x z/VM backend  | Resolved    | mgriessmeier | future         |          |                    |
| 95926  | openQA Tests          | [qe-core] Investigate if mau-qa_userspace_openssh coverage can be justified to keep the testsuite scheduled | Resolved    | geor         | QE-Core: Ready |          |                    |
| 90923  | openQA Tests          | [qe-core] Schedule userspace_systemd in SLE 15 SP3  | Resolved    | geor         | QE-Core: Ready |          |                    |
| 95798  | openQA Tests          | [qe-core] SLE 15-SP3 missing from version specific section of mau-extratets-*.yaml                          | Resolved    | punkioudi    | QE-Core: Ready |          |                    |
| 69055  | openQA Tests          | [qe-core][qem][openvswitch][epic][sprint] Increase openvswitch coverage for 15 SP2                          | Resolved    | punkioudi    | QE-Core: Ready |          |                    |
| 96992  | openQA Tests          | [qe-core][samba_adcli] Track and softfail all samba_adcli sporadic failures.                                | Resolved    | geor         | QE-Core: Ready |          | Related to #114718 |
| 89461  | openQA Tests          | [qe-core][systemd] qa_test_systemd fails in check-mdmonitor   | Resolved    | geor         | QE-Core: Ready |          |                    |
