

## Issues

| #      | Project      | Subject  | Status   | Assignee     | Target version | Due date | Related issues     |
|--------|--------------|--|----------|--------------|----------------|----------|--------------------|
| 99567  | qe-yast      | aarch64 job takes more than 2h and times out   | Rejected |              | Current        |          |                    |
| 99570  | qe-yast      | Beta distribution popup appears after access_beta_distribution                               | Rejected |              | Current        |          |                    |
| 99573  | qe-yast      | Investigate failure of LVM activation  | Rejected |              | Current        |          |                    |
| 99600  | qe-yast      | Investigate System Role page not loading   | Rejected |              | Current        |          |                    |
| 99603  | qe-yast      | svirt-xen-hvm jobs entering emergency mode in first boot                                     | Rejected |              |                |          |                    |
| 101903 | qe-yast      | Investigate test failure in integration_services   | Rejected |              | Current        |          |                    |
| 105972 | qe-yast      | New version of nvme package causes nvme_checks module to fail                                | Rejected |              | Current        |          |                    |
| 105975 | qe-yast      | Investigate disk Input/output error on ppc64le-hmc   | Rejected |              | Current        |          |                    |
| 105978 | qe-yast      | Investigate kex_exchange_identification error in s390x-kvm                                   | Rejected |              | Current        |          |                    |
| 108803 | qe-yast      | Fix key navigation in yast2 snapper ncurses test   | Rejected |              | Current        |          |                    |
| 109452 | qe-yast      | [Timebox: 8h] Investigate script_output failure in validate_addon_extension_repo_*           | Rejected |              | Current        |          |                    |
| 116128 | qe-yast      | Rectify unsupported configuration in bootloader settings when migrating from 15sp4 hpc       | Rejected |              | Current        |          |                    |
| 116131 | qe-yast      | Ensure Boot from Hard Disk is selected in grub, migration                                    | Rejected |              | Current        |          |                    |
| 106047 | qe-yast      | Add no fatal flag to "verify_*" modules  | Closed   |              | Current        |          |                    |
| 44306  | openQA Tests | [qam] test fails in ant due to com.sun.tools.javac.Main not being on the classpath           | Closed   | geor         |                |          | Related to #44453  |
| 99267  | qe-yast      | Improve validate_multipath module  | Closed   | geor         | Current        |          |                    |
| 103704 | qe-yast      | [timebox:8h] Investigate failure in ibft - no /var/log/YaST2/mkinitrd.log                    | Closed   | geor         | Current        |          |                    |
| 104580 | qe-yast      | OKStopPopup does not appear after performing installation                                    | Closed   | geor         | Current        |          |                    |
| 99555  | qe-yast      | Investigate x11_yast pattern being installed unexpectedly                                    | Closed   | JERiveraMoya | Current        |          |                    |
| 101908 | qe-yast      | Investigate test failure in accept_default_part_scheme                                       | Closed   | JERiveraMoya | Current        |          |                    |
| 102260 | qe-yast      | [Timebox: 16h] Investigate composition over inheritance for widget attributes                | Closed   | JERiveraMoya | Current        |          | Related to #100904 |
| 103718 | qe-yast      | Select disk with YuiRestClient instead of using encrypt_lvm_simple_pwd                       | Closed   | oorlov       | Current        |          |                    |
| 105070 | qe-yast      | Document Widget abbreviations  | Closed   | rainerkoenig | Current        |          |                    |
| 108758 | qe-yast      | Wait for extensions and modules registration   | Closed   | rainerkoenig | Current        |          |                    |
| 72037  | openQA Tests | [yast][security][qem][shim] Enable shim testing on baremetal                                 | Feedback | hrommel1     |                |          |                    |
| 91899  | openQA Tests | [qe-core] 15SP2 QU - An error occurred during the installation (ppc64le )                    | Resolved |              |                |          |                    |
| 105440 | qe-yast      | Add new ZFCP devices that appear over 0.0.fc00 channel                                       | Resolved | amanzini     | Current        |          |                    |
| 105449 | qe-yast      | Create new test module for testing multipath   | Resolved | amanzini     | Current        |          |                    |
| 107749 | qe-yast      | Send the correct number of keys in send_key_until_needlematch                                | Resolved | amanzini     | Current        |          |                    |
| 115619 | qe-yast      | Adjust send_key_until_needlematch `scounter` argument in testsuites, to match recent changes | Resolved | amanzini     | Current        |          |                    |
