|-------|----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|--------------|----------------|------------|---------------------------------------------------------------|
| 65954 | openQA Project | Create a way to check which jobs contain a test                                                                                                               | Rejected | okurz        |                |            | Is duplicate of #34486                                        |
| 91046 | openQA Project | CI: "webui-docker-compose" seems that eventually fails again                                                                                                  | Resolved | ilausuch     |                |            | Related to #89731,<br>Related to #90614                       |
| 69244 | openQA Project | Need to rebuild the video codecs after update the system packages                                                                                             | Resolved | okurz        |                | 2020-07-29 |                                                               |
| 71188 | openQA Project | job incomplete with auto_review:"backend died: QEMU exited unexpectedly, see log for details" and no other obvious information in the logfile what went wrong | Workable |              | future         |            | Related to #75091                                             |
| 91818 | openQA Project | containers: Add logs when docker-compose up fails in the CI                                                                                                   | New      |              | future         |            | Related to #91488                                             |
| 80466 | openQA Project | docker: Base the webUI and worker Dockerfiles in Tumbleweed                                                                                                   | Workable |              | future         |            | Related to #80142                                             |
| 88061 | openQA Project | Fix premature cancel of a job when strange character is encountered                                                                                           | New      |              | future         |            |                                                               |
| 88315 | openQA Project | Complete the worker container test obtaining the key/secret to complete the connection with the web UI                                                        | New      |              | future         |            |                                                               |
| 89749 | openQA Project | containers: Allow to the user to choose the source of images in the docker-compose                                                                            | New      |              | future         |            |                                                               |
| 89755 | openQA Project | container: Fix missing shared directories and its permissions                                                                                                 | Resolved |              | future         |            | Related to #76978,<br>Related to #90989                       |
| 89929 | openQA Project | containers: Fix nginx configuration to independence the WS and livehandler backend urls of the docker-compose parent directory                                | New      |              | future         |            |                                                               |
| 90989 | openQA Project | containers: Configurable workdir location in docker-compose                                                                                                   | Workable |              | future         |            | Related to #89755                                             |
| 90995 | openQA Project | containers: Reduce the testing time for "webui-docker-compose"                                                                                                | New      |              | future         |            | Related to #90767                                             |
| 91584 | openQA Project | containers: ensure the failure of the web UI container when Apache fails                                                                                      | New      |              | future         |            |                                                               |
| 91815 | openQA Project | containers: Expand the docker-compose CI test to check healthy of containers                                                                                  | New      |              | future         |            |                                                               |
| 92092 | openQA Project | containers: openQA test eventually fails because of timeouts                                                                                                  | New      |              | future         |            | Related to #95374,<br>Related to #106922                      |
| 93177 | openQA Project | containers: webui doesn't has the credentials to connect to the scheduler                                                                                     | New      |              | future         |            | Related to #92833                                             |
| 94030 | openQA Project | Cleanup logging in autoinst-log.txt for download assets                                                                                                       | Resolved | okurz        | future         |            | Related to #92902                                             |
| 94255 | openQA Project | containers: Improve the speed of the container test in CI                                                                                                     | New      |              | future         |            |                                                               |
| 95768 | openQA Project | containers: the single_container_test shows this error "Permission denied" when tries to create the directory "/var/lib/openqa/share/factory/tmp"             | New      |              | future         |            |                                                               |
| 81060 | openQA Project | [epic] openQA web UI in kubernetes                                                                                                                            | Blocked  | okurz        | Ready          |            | Related to #76978                                             |
| 88187 | openQA Project | Set the addresses in the "internal clients" configurable                                                                                                      | Resolved | mkittler     | Ready          |            | Blocks #76990                                                 |
| 88482 | openQA Project | Two absolute paths concatenated to form a default needle dir when PRODUCT_DIR/needles doesn't exist                                                           | Resolved | Xiaojing_liu | Ready          |            | Related to #67723                                             |
| 89731 | openQA Project | containers: The deploy using docker-compose is not stable and eventually fails                                                                                | Resolved | ilausuch     | Ready          |            | Related to #91046,<br>Blocked by #89719,<br>Blocked by #89722 |
