Those tests are already in place but use assets like openSUSE-Leap-15.4-DVD-x86_64-Build230.2-Media.iso, e.g. see [https://openqa.opensuse.org/tests/2397036#settings](https://openqa.opensuse.org/tests/2397036#settings)

On o3 in /var/lib/openqa/share/factory/iso/fixed I did

```
for i in DVD NET; do ln ../openSUSE-Leap-15.4-$i-x86_64-Build243.2-Media.iso openSUSE-Leap-15.4-$i-x86_64.iso; done
```

so tests can be updated to use the GM assets.
