**Description**

we need a windows 10 + secure boot dual boot test for openSUSE

**History**

**#1 - 2016-01-19 13:54 - okurz**
- Checklist set to [ ] TW

**#2 - 2017-01-05 16:26 - okurz**
- Target version set to future

**#3 - 2017-03-29 10:55 - asmorodskyi**
- Priority changed from High to Low

This bug is 1 year old with no updates so in a fact is not "High" priority

**#4 - 2017-03-29 11:31 - lnussel**
- Status changed from New to Closed

Just because QA fails to work on issues based on priority doesn't mean it's not important. However, meanwhile the issue is resolved as I wrote the test myself.

**#5 - 2018-06-15 19:08 - okurz**
- Target version changed from future to future
