

openQA Tests - action #104043

coordination # 104040 (Workable): [qe-lsg][qe-core][kernel][hpc][qe-sap][epic] Reconfigure openQA settings for moving SLE15-SP2 to LTSS

[qe-core] Reconfigure openQA settings for moving SLE15-SP2 to LTSS - Maintenance: SLE Single Incidents

2021-12-15 16:34 - vsvecova

Status:	Resolved	Start date:	
Priority:	Normal	Due date:	
Assignee:	dzedro	% Done:	0%
Category:	Spike/Research	Estimated time:	0.00 hour
Target version:	QE-Core: Ready		
Difficulty:			

Description

As SLE15-SP2 is moving to LTSS, openQA settings need to be configured to reflect this.

This ticket is intended to be specific for SLE15-SP2 Single Incidents.

Acceptance Criteria

AC1: Document the steps LTSS requires for a new product version

Suggestion

We need to check this but it first involves figuring out and documenting what are exact changes the LTSS requires - and if they are already handled in the related ticket about the aggregate tests.

History

#1 - 2021-12-15 16:37 - vsvecova

- Subject changed from Reconfigure openQA settings for moving SLE15-SP2 to LTSS - SLE Single Incidents to Reconfigure openQA settings for moving SLE15-SP2 to LTSS - Maintenance: SLE Single Incidents

#2 - 2021-12-16 15:58 - maritawerner

- Subject changed from Reconfigure openQA settings for moving SLE15-SP2 to LTSS - Maintenance: SLE Single Incidents to [qe-core]Reconfigure openQA settings for moving SLE15-SP2 to LTSS - Maintenance: SLE Single Incidents

#3 - 2022-01-19 07:25 - tjrinski_suse

- Category set to Enhancement to existing tests

#4 - 2022-02-09 07:47 - tjrinski_suse

- Subject changed from [qe-core]Reconfigure openQA settings for moving SLE15-SP2 to LTSS - Maintenance: SLE Single Incidents to [qe-core] Reconfigure openQA settings for moving SLE15-SP2 to LTSS - Maintenance: SLE Single Incidents

- Status changed from New to Workable

- Target version set to QE-Core: Ready

- Start date deleted (2021-12-15)

See <https://progress.opensuse.org/issues/104044> for how aggregate tests were handled.

#5 - 2022-02-09 10:11 - tjrinski_suse

- Category changed from Enhancement to existing tests to Spike/Research

Changing to Spike/Research, we need to check this but it first involves figuring out *and documenting* what are exact changes the LTSS requires - and if they are already handled in the related ticket about the aggregate tests.

#6 - 2022-03-09 09:38 - tjrinski_suse

- *Description updated*

Different squads have specific steps required.

Some tests have specific migrations that have variables that are very hard to understand.

For QE Core Jozef will comment here.

#7 - 2022-03-09 09:39 - tjrinki_suse

- *Assignee set to dzedro*

#8 - 2022-03-09 09:50 - dzedro

I created <https://confluence.suse.com/display/maintenanceqa/openQA+-+prepare+LTSS+on+15+SP2>

Each squad can have different things which have to be updated e.g. qcow2 images, but all squads should make sure LTSS is added in medium types and tests/yamls.

#9 - 2022-04-13 10:26 - szarate

- *Status changed from Workable to Resolved*

As the document already exists, I call this done, I'll follow up with the missing items from the checklist in confluence

#10 - 2022-05-10 22:31 - szarate

- *Sprint set to QE-Core: April Sprint (Apr 13 - May 11)*
