Target version:			
Difficulty:			
Description			
Base maintenance lessons learn we take integration btrfsmaintenance module action should following poo#65606			
Regression in btrfsmaintenance Bug 1159891 - L3: EMU: btrfs cron jobs source common.sh incorrectly There are 2 issues caused by btrfsmaintenance. First is that btrfsmaintenance-refresh.service creates symlinks at /etc/cron.* that are not deleted when the package is not removed.			
Second issue is that 2 scripts (btrfs-balance, btrfs-trim) are incorrectly sourcing /etc/cron.weekly/common.sh, which does not exist. The fix was to remove symlinks when btrfsmaintenance package is removed, also fixed the broken common.sh PATH.			
Steps taken to prevent regression in the future On regression tests, add a step to run crontab scripts and check results on system logs and administrator e-mail.
