Also installed the fixes on all o3 workers and osd with

```
sudo salt --no-color --state-output=changes -C 'G@roles:worker' cmd.run 'zypper -n in os-autoinst'
```

Called from <https://github.com/os-autoinst/scripts>

```
./openqa-monitor-incompletes | ./openqa-label-known-issues
```

```
export host=openqa.suse.de; bash -ex ./openqa-monitor-incompletes | bash -e ./openqa-label-known-issues
```

should have caught all.
