[Epic] Refine our testing of multipath

2022-01-25 14:10 - geor

Status: Workable	Start date: 2022-01-25
Priority: Normal	Due date:
Assignee:	% Done: 50%
Category:	Estimated time: 0.00 hour
Target version: Current	
Description	
Motivation	
<p>The FCP topology on our z/VM testing infrastructure has recently been updated. We now have two Host Bus Adapters connecting our z/VM Server to the storage.</p> <p>You can see an overview of our updated topology here.</p> <p>Our aim is to have in place a multipath test that will check the status of the infrastructure as it currently is, and the status of multipathing on top of it.</p> <p>For some more info about FCP and multipathing on our z/VM system check this confluence article.</p>	
Subtasks:	
action # 105440: Add new ZFCP devices that appear over 0.0.fc00 channel	Resolved
action # 105449: Create new test module for testing multipath	Feedback
