Description

user story

As a user of the group overview page I want to be able to add comments using an edit window on top of existing comments not to need to scroll down in a long list.

acceptance criteria

- The comment entry window is on top of existing comments (if there are existing comments)

further notes

This is a requirement raised by SUSE SLE RM

History

#1 - 2016-02-08 14:06 - okurz

Any objections?

#2 - 2016-02-08 14:07 - okurz

- Parent task set to #10148

#3 - 2016-02-16 14:36 - coolo

That supports "write before read" and is IMO counter productive. How about a "jump to" link instead?

#4 - 2016-02-16 14:37 - okurz

sounds good. Maybe there is a common approach in the world how to do this.

#5 - 2016-02-16 16:06 - coolo

there is: place the comment field at the end of the page and train users to press end if they want to go to the end of the page.

#6 - 2016-03-04 16:33 - okurz

- Status changed from New to Rejected

wontfix as per [#10632#note-5](#)
