### Description

#### Observation

openQA test in scenario sle-15-SP3-Server-DVD-Updates-x86\_64-mau-extratests-security-fips@64bit fails in [ntp\\_client](#)

This is part of the FIPS test suite but ntp sounds generic enough for QE Core.

#### Test suite description

Testsuite maintained at <https://gitlab.suse.de/qa-maintenance/qam-openqa-yml>.

#### Reproducible

Fails since (at least) Build [20220308-1](#) (current job)

#### Expected result

Last good: [20220307-1](#) (or more recent)

#### Further details

Always latest result in this scenario: [latest](#)
