Description

Hi,

www.opensuse.com is redirected to <https://www.opensuse.org/en/> which doesn't exist anymore (404)

I'd suggest to fix the initial redirection and also to add another redirection from www.opensuse.org/en/ to www.opensuse.org (and maybe for other languages)..

Thanks !

- Status changed from New to Closed

Indeed, someone fixed opensuse.com without telling us ;-) - therefore I'll happily close this ticket.
