Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
Observation			
While investigating a different issue, it has been noted that the test installs 389-ds version 1.4.4.19, although on 15-SP2 it should currently be version 1.4.3.29.			
As it turns out, the wrong version comes from repositories for 15-SP3, while the test is for 15-SP2.			
openQA test in scenario sle-15-SP2-Server-DVD-Updates-x86_64-sssd_389ds_functional@64bit fails in sssd_389ds_functional			
Test suite description			
Testsuite maintained at https://gitlab.suse.de/qa-maintenance/qam-openqa.yml . Maintainer: QE Core / QE Security			
Reproducible			
Fails since (at least) Build 20220404-1 (current job)			
Expected result			
Last good: 20220403-1 (or more recent)			
Further details			
Always latest result in this scenario: latest			

History

#1 - 2022-04-05 14:37 - dzedro

1. hardcoded docker image 15.3 is used on Maintenance tests without SCC_URL
https://github.com/os-autoinst/os-autoinst-distri-opensuse/blob/master/tests/console/sssd_389ds_functional.pm#L44
2. Docker is not installing the update, does require kind of same fix as openldap here
<https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/14506>

It will work after setting openQA variable QEMURAM=1024 but fail with QEMURAM=2048.

I cloned a failed job with QEMURAM=1024. It passed. <https://openqa.suse.de/tests/8481207#>

openqa-clone-job --skip-download --skip-deps --from <https://openqa.suse.de/tests/8473707> --host <https://openqa.suse.de> QEMURAM=1024

I downloaded the the qcow2 images and created the jobs. The result were the same.

The container base image seems fine since it has not been changed since 2022-03-22. <https://registry.suse.com/static/suse/sle15sp3/index.html>

It might be something wrong with 389-ds or Docker?

Are there any recent changes to 389-ds or Docker?

#3 - 2022-04-08 10:27 - tonyyuan

This is duplicate of <https://progress.opensuse.org/issues/109473>. The --shm-size=256m is good fix for this issue.
