

## openQA Project - action #110566

action # 110032 (Resolved): Migration group can not trigger, missing minion jobs? size:M

### [tools] Problem with ISOS Post command from OBS sync

2022-05-03 09:57 - jlausuch

<b>Status:</b>	Resolved	<b>Start date:</b>	2022-05-03
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	kraih	<b>% Done:</b>	0%
<b>Category:</b>	Concrete Bugs	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Ready		
<b>Difficulty:</b>			

**Description**

The latest OSD 15-SP4 JeOS (Minimal-VM) jobs have only been triggered for Raspbery-Pi flavor:  
This is the OBS sync log:  
[https://openqa.suse.de/admin/obs\\_rsync/SUSE:SLE-15-SP4:GA:TEST%7Cjeos/runs/.run\\_last/download/openqa.cmd.log](https://openqa.suse.de/admin/obs_rsync/SUSE:SLE-15-SP4:GA:TEST%7Cjeos/runs/.run_last/download/openqa.cmd.log)

Looking at the product scheduled:  
<https://openqa.suse.de/admin/productlog?id=910513>

Results

```
{
  "failed_job_info": [],
  "successful_job_ids": [
    8676719,
    8676726,
    8676732,
    8676735,
    8676742,
    8676748,
    8676753,
    8676758
  ]
}
```

this is what I would expect from other isos post, but for instance:  
<https://openqa.suse.de/admin/productlog?id=910516> or  
<https://openqa.suse.de/admin/productlog?id=910515>  
have empty results:

Results

```
No results available.
```

and the jobs were not scheduled at all.

### History

#### #1 - 2022-05-03 09:59 - mloviska

build 1.134 re-triggered manually, though it took unexpectedly longer time than usually it does.

#### #2 - 2022-05-04 07:15 - jlausuch

- File Screenshot 2022-05-04 at 08.53.30.png added

- File Screenshot 2022-05-04 at 08.54.13.png added

This happened again today:

Screenshot 2022-05-04 at 08.53.30.png

Screenshot 2022-05-04 at 08.54.13.png  
Looking at the audit log, RPi jobs are ok as expected:

<https://openqa.suse.de/admin/productlog?id=911112>

But other flavors don't schedule any job:

[JeOS-for-kvm-and-xen x86\\_64](#)  
[JeOS-for-kvm-and-xen aarch64](#)  
[JeOS-for-MS-HyperV](#)  
[JeOS-for-VMware](#)  
[JeOS-for-OpenStack-Cloud](#)

**#3 - 2022-05-04 11:02 - maritawerner**

[okurz](#) is that for the tools team or for [andriinikitin](#) ?

**#4 - 2022-05-05 07:32 - okurz**

- Subject changed from Problem with ISOS Post command from OBS sync to [tools] Problem with ISOS Post command from OBS sync
- Priority changed from Normal to High
- Target version set to Ready

We will take it and consult with andriinikitin as necessary

**#5 - 2022-05-05 09:57 - kraith**

- Assignee set to kraith

Likely a duplicate of [#110032](#).

**#6 - 2022-05-05 09:57 - kraith**

- Status changed from New to Blocked
- Parent task set to #110032

**#7 - 2022-05-05 13:44 - kraith**

And confirmed, this is the same as [#110032](#) and should be resolved with the next openQA update.

```
openqa=# SELECT id, distri, arch, build, status, results, gru_task_id, minion_job_id, t_created, t_updated FROM
M scheduled_products WHERE status = 'added' AND BUILD = '1.134' AND FLAVOR = 'JeOS-for-kvm-and-xen' ORDER BY t
_created DESC;
```

id	distri	arch	build	status	results	gru_task_id	minion_job_id	t_created	t_updated
910516	sle	x86_64	1.134	added		31531565	4417792	2022-05-03 00:31:54	2022-05-03 00:31:54
910515	sle	aarch64	1.134	added		31531564	4417791	2022-05-03 00:31:51	2022-05-03 00:31:51

(2 rows)

**#8 - 2022-05-09 09:10 - kraith**

- Status changed from Blocked to Resolved

No new cases over the weekend, i think we can consider this resolved.

**#9 - 2022-05-13 14:00 - jlausuch**

- Category deleted (Bugs in existing tests)
- Assignee deleted (kraith)
- Target version deleted (Ready)
