Description

Observation

The command cargo run --manifest-path testproject/Cargo.toml keeps on timing out every now and then. Sufficient reruns of the test happen to let it pass, sometimes it fails a few times in a row.

openQA test in scenario opensuse-Tumbleweed-DVD-x86_64-extra_tests_textmode@64bit fails in [rust](#)

Test suite description

Maintainer: slindomansilla@suse.de.
Mainly post-installation console extra tests.

Reproducible

Fails since (at least) Build [20210920](#)

Expected result

Last good: [20210920](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

Suggestions

1. add a timeout for cargo for 120s, as it depends on an externally available resource
2. Create a ticket for follow up, to execute cargo run on a local project (see manorboy test)

History

#1 - 2022-06-13 07:01 - szarate

- Sprint set to QE-Core: June Sprint (Jun 08 - Jul 06)
- Tags set to bugbusters, qe-core-june-sprint
- Subject changed from rust: cargo run --manifest-path testproject/Cargo.toml timed out to [qe-core] rust: cargo run --manifest-path testproject/Cargo.toml timed out
- Description updated
- Status changed from New to Workable
- Target version set to QE-Core: Ready
