openQA Tests - action #11462

Feature 320597 and 320699: Introduce 'zypper lifecycle' to provide information about life cycle of individual products and packages and Do not communicate End of Support dates, that change later to a previous point in time

2016-04-01 13:08 - maritawerner

Status:	Resolved		**Start date:**	2016-04-01
Priority:	Normal		**Due date:**	
Assignee:	okurz		**% Done:**	70%
Category:			**Estimated time:**	0.00 hour
Target version:	Milestone 3			
Difficulty:				

Description

For details see https://fate.suse.com/320597

First check if the Feature status is "done".

_____

In addition please extend the Testcase to test Feature 320699: Do not communicate End of Support dates, that change later to a previous point in time.

For details see https://fate.suse.com/320699

History

#1 - 2016-04-05 13:23 - dzedro

wrong fate link ?

Bug founded:

https://build.suse.de/package/show/home:nadvornik:zypper-lifecycle/zypper-lifecycle-plugin

- fixed return value (bsc#979322)
- do not ignore errors on parsing of lifecycle data (bsc#979431)

#11 - 2016-05-24 09:37 - dmaiocchi

bug 981106

#12 - 2016-05-27 07:20 - dmaiocchi

- % Done changed from 90 to 100

Fate manual testing for feature done.

For the automation that in a fate-feature is not MANDATORY, "out of my task" i explained the condition how to import my testsuite. Otherwise i cannot import to your job-framework-scheduler.

For me close.

#13 - 2016-05-27 07:20 - dmaiocchi

- Assignee deleted (dmaiocchi)

- % Done changed from 100 to 70

This is the openQA test issue tracker.

The task was to implement it in openQA as part of openQA's Milestone 3

Reset % accordingly, reopened, and cleared assignment.

I am deleting outdated duplicated information from FATE entry to keep the issue clean and not lead people into thinking that they don't need to look at the FATE entry.

Current state as of 2016-07-26:

- https://fate.suse.com/320597 is not marked as DONE but the corresponding SR for the feature is accepted so I assume the prerequisites are fulfilled.

- https://fate.suse.com/320699 is not marked as DONE and seems to be still WIP

I added back-links from this progress issue to both fate entries and asked for test case descriptions.

#18 - 2016-08-02 18:04 - okurz

- Status changed from Feedback to In Progress

nadvornik added test case to fate.

PR ready: https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/1613

it's a start.

#19 - 2016-08-05 12:16 - okurz

#13040 is seen as followup.

Verified locally on http://lord.arch/tests/2449 on x86_64 in one SLES scenario.

Feature test: PASSED

#20 - 2016-08-08 12:07 - okurz

some tests failed because I was not considering timezone differences, of course. Fixed by
https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/1660

```
commit d8cda34
Author: Oliver Kurz <okurz@suse.de>
Date:   Mon Aug 8 14:04:09 2016 +0200

    zypper_lifecycle: Do not rely on date as getting date is non-atomic

    The  being evaluated on the worker and not the SUT is suspect to timezone
    differences, e.g. see
    https://openqa.suse.de/tests/506437#step/zypper_lifecycle/29, where this
    fails. But even when we would get the time from the SUT and then compare it
    against the zypper lifecycle output we could hit the day boundary. It is
    better to not try to parse the date at all.
```

#21 - 2016-08-09 09:28 - okurz

The SLEnkins test is in https://gitlab.suse.de/SLEnkins/tests-zypper/blob/master/testsuite-control/run.py

#22 - 2016-08-16 13:43 - mkravec

Failing in: https://openqa.suse.de/tests/516239

#23 - 2016-08-22 14:52 - okurz

- Status changed from In Progress to Feedback

fixed by https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/1731

so far not finished yet in product as no one merged for some time. Always latest:
https://openqa.suse.de/tests/latest?test=cryptlvm&flavor=Server-DVD&arch=ppc64le#step/zypper_lifecycle/29

#24 - 2016-10-24 08:37 - okurz

- Status changed from Feedback to Resolved

Had been very stable over the recent weeks.
