

## openQA Infrastructure - action #114866

### Handle a trailing slash in NEEDLES\_DIR correctly

2022-08-01 08:54 - cdywan

<b>Status:</b> New	<b>Start date:</b> 2022-02-22
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b> future	
<b>Description</b>	
<b>Motivation</b>	
<p>Currently if the NEEDLES_DIR parameter is supplied with a trailing slash it causes the first character of the filename to be stripped and the JSON needle file is not found.</p> <p>See <a href="#">Handle a NEEDLES_DIR that contain a trailing / correctly</a> for the original context.</p>	
<b>Acceptance criteria</b>	
<ul style="list-style-type: none"><li>• <b>AC1:</b> A trailing slash in NEEDLES_DIR is effectively ignored</li></ul>	
<b>Suggestions</b>	
<ul style="list-style-type: none"><li>• Look at <a href="#">the existing proof of concept</a></li><li>• Consider File::Spec-&gt;canonpath</li><li>• Extend t/01-test_needle.t</li></ul>
