

## openQA Tests - action #11754

### Rename images and tests for multi-architecture offline migrations/zdup/etc

2016-04-29 12:00 - RBrownSUSE

<b>Status:</b>	Resolved	<b>Start date:</b>	2016-04-29
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	dzedro	<b>% Done:</b>	100%
<b>Category:</b>	Enhancement to existing tests	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Milestone 3		
<b>Difficulty:</b>			
<b>Description</b>			
<p>We currently have a bunch of architecture specific test runs such as migration_offline_sle12_ppc</p> <p>This was because we didn't have the variable expansion feature at time of creating the test, so we couldn't tell openQA to do something like use HDD_1=SLES-12-%ARCH%-gnome-sle12.qcow2</p> <p>Now we can do that, we can remove the architecture specific scenarios and replace them with global ones</p> <p>In order to do this the following tasks are required</p> <ul style="list-style-type: none"><li>• Rename the images on openqa.suse.de to use a consistent naming convention</li><li>• Change the scenarios on openqa.suse.de to use that naming convention for HDD_1</li><li>• Remove the architecture specific scenarios</li></ul> <p>This will reduce the mess we have in the dashboard for architecture specific tests that don't need to be architecture specific.</p>			

#### History

##### #1 - 2016-04-29 12:01 - RBrownSUSE

after this is done the rollback\_migration tests will also need to be tidied up to match

##### #2 - 2016-05-30 12:54 - okurz

- Target version changed from 168 to Milestone 3

##### #3 - 2016-08-05 08:13 - okurz

- Assignee set to dzedro

as discussed today in call.

##### #4 - 2016-08-08 13:59 - dzedro

tests are renamed and ppc removed, I left images still there and will remove them when few new builds will be tested.

There are still tests om\_proxyscc with \_ppc, but I wouldn't like to touch them because renaming this disk could affect some tests about which I have no idea.
