|--|----------|------------------------|------------|
| Status: | Resolved | Start date: | 2016-05-04 |
| Priority: | Urgent | Due date: | |
| Assignee: | mkravec | % Done: | 100% |
| Category: | | Estimated time: | 0.00 hour |
| Target version: | | | |
| Difficulty: | | | |
| Description | | | |
| For details see https://fate.suse.com/319335 | | | |
| Feature is set to "Validation"= Done! | | | |
| Testcase: | | | |
| First use vncpasswd tool to create passwd file. vncpasswd /tmp/file.passwd Password: Verify: Would you like to enter a view-only password (y/n)? y Password: Verify: Old version wouldn't ask you for the view-only password, new version does. Next start VNC server that uses the file for authentication. Let's start empty Xvnc with xev running inside: Xvnc :1 -SecurityTypes=VncAuth -PasswordFile=/tmp/file.passwd & DISPLAY=:1 xev Then connect to it with your favorite VNC viewer. You can do it using vncviewer: vncviewer localhost:1 -SecurityTypes=VncAuth You will be asked to enter password. If you enter the first password, you can move mouse and type in the xev window and you should see that the events are being delivered in the xev output. If you enter the view-only password, your mouse and keyboard should be ignored. | | | |

History

#1 - 2016-07-11 13:44 - RBrownSUSE

- Priority changed from Normal to Urgent

#2 - 2016-08-01 12:41 - mkravec

- Assignee set to mkravec

#3 - 2016-08-03 10:18 - mkravec

- Status changed from New to In Progress

- % Done changed from 0 to 90

#4 - 2016-08-05 12:07 - okurz

PR merged: <https://github.com/os-autoinst/os-autoinst-distrib-opensuse/pull/1627>
seems to work fine, see <http://dhcp91.suse.cz/tests/2011>

#5 - 2016-08-05 12:09 - okurz

mkravec: Did it run on osd already?

#6 - 2016-08-05 12:12 - mkravec

Last 7 builds did not reach extra tests group - so not yet, but test is set up

#7 - 2016-08-05 12:13 - mkravec

- % Done changed from 90 to 100

#8 - 2016-08-08 06:54 - mkravec

- Status changed from *In Progress* to *Resolved*

<https://openqa.suse.de/tests/505177>

#9 - 2016-08-08 07:34 - mkravec

- Status changed from *Resolved* to *In Progress*

Failing in some cases: https://openqa.suse.de/tests/506339#step/vnc_two_passwords/18

#10 - 2016-08-08 14:53 - mkravec

- Status changed from *In Progress* to *Resolved*

Should be fixed by <https://github.com/os-autoinst/os-autoinst-distrib-opensuse/pull/1663>
