Stefan, as discussed yesterday we should upload the drivers already. Could you take care of this please?

#4 - 2016-09-12 16:14 - Inussel

We are approaching beta2, did you get the driver to build?

Repos are online meanwhile. <http://download.nvidia.com/opensuse/leap/42.2> is the repo. This address is not browsable. You need to add this URL as repo to zypper.
