[qe-core][opensuse][sle][functional] Sudo and LDAP/SSSD for sudoers

2016-08-12 09:12 - scarabeus_iv

Status: Workable	Start date: 5000-01-01
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: New test	Estimated time: 0.00 hour
Target version: Milestone 31	
Difficulty:	

Description

Motivation

ldap/sssds functionality is an important use case for SLES so we should ensure this is well covered in automatic tests (does not need to be openQA).

Suggestions

- Crosscheck coverage of existing openQA/IBS-userspace-regression/slenkins tests we have to test "sudo", "openldap", "sssds"
- Ensure we have an automatic test that does the following steps:
 - install sudo, openldap2 and sssds packages
 - configure LDAP to synchronize sudoers
 - configure SSSD to cache LDAP sudoers rules
 - verify it works

History

#1 - 2017-01-05 16:26 - okurz

- Target version set to future

#2 - 2017-07-20 14:09 - okurz

We have tests/sysauth/sssds.pm so a start, at least :-)

#3 - 2017-07-20 14:10 - okurz

- Subject changed from Sudo and LDAP/SSSD for sudoers to [opensuse][sle][functional]Sudo and LDAP/SSSD for sudoers

#4 - 2018-06-15 19:07 - okurz

- Target version changed from future to future

#5 - 2018-10-12 20:02 - okurz

- Subject changed from [opensuse][sle][functional]Sudo and LDAP/SSSD for sudoers to [opensuse][sle][functional][u] Sudo and LDAP/SSSD for sudoers

[scarabeus_iv](#) do you plan to work on this? If we would ask the team QSF-u (QA SLE Functional u-team) to do it I estimate we will not have it within the next months but we could try still :)

#6 - 2018-10-13 15:47 - scarabeus_iv

Not really, Maybe I misclicked when I was creating the ticket. I opened the bug when we were discussing what should be automated with QAM people.

#7 - 2018-10-14 14:59 - okurz

- Description updated
- Assignee deleted (scarabeus_iv)

I see, so I guess it makes sense to keep this ticket on the backlog of "[functional][u]" and "[qam]" and unassign you and then we can see which team might be able to pick this up first if any

#8 - 2018-10-14 15:04 - okurz

- Start date set to 5000-01-01

due to changes in a related task

#9 - 2018-10-14 15:04 - okurz

- Parent task set to #42104

- Related to action #44141: [functional][u][leap] test fails in sssd in junit test step "Start SSSD" added

#11 - 2019-01-08 13:30 - okurz

- Blocked by action #33082: [sle][functional][u] sysauth/sssds is not scheduled on osd added

#12 - 2019-01-08 13:30 - okurz

- Status changed from New to Blocked
- Assignee set to okurz

#13 - 2019-03-14 12:39 - okurz

- Priority changed from Normal to Low

#14 - 2019-05-22 10:38 - okurz

- Assignee changed from okurz to mgriessmeier

Move to new QSF-u PO after I moved to the "tools"-team. I mainly checked the subject line so in individual instances you might not agree to take it over completely into QSF-u. Feel free to discuss with me or reassign to me or someone else in this case. Thanks.

#15 - 2019-10-17 07:33 - SLindoMansilla

- Related to action #57215: [functional][u] test fails in sssd - Failed to start SSSD added

#16 - 2020-04-03 08:28 - szarate

- Status changed from Blocked to Workable
- Assignee deleted (mgriessmeier)
- Priority changed from Low to Normal
- Target version changed from future to Milestone 31

We need to check, and take a look how the current sssd test module is doing, also take into account that it is on the phub module, and also we can think about a authentication test scenario

#18 - 2020-11-06 10:32 - tjrinki_suse

- Subject changed from [opensuse][sle][functional][u] Sudo and LDAP/SSSD for sudoers to [qe-core][opensuse][sle][functional] Sudo and LDAP/SSSD for sudoers

#19 - 2021-04-19 07:32 - szarate

- Related to action #89479: [qe-core] test fails in sssd - Fix sssd testing with openldap, remove use of python-pam added

#20 - 2021-07-12 08:00 - szarate

- Priority changed from Normal to High

#21 - 2021-09-01 14:01 - okurz

This ticket was set to "High" priority but was not updated within the SLO period for "High" tickets (30 days) as described on

<https://progress.opensuse.org/projects/openqatests/wiki/Wiki#SLOs-service-level-objectives> . Please consider picking up this ticket within the next 30 days or just set the ticket to the next lower priority of "Normal" (SLO: updated within 365 days). This update was done as agreed within the SUSE QE Sync call 2021-09-01

#22 - 2021-10-12 08:29 - okurz

- Priority changed from High to Normal

This ticket was set to "High" priority but was not updated within the SLO period for "High" tickets (30 days) as described on <https://progress.opensuse.org/projects/openqatests/wiki/Wiki#SLOs-service-level-objectives> . The ticket will be set to the next lower priority of "Normal".

#23 - 2021-10-13 11:22 - maritawerner

[szarate](#): all related tickets are resolved besides the "parent ticket". Could we close this ticket or is there still something to do?
