Description
Figure out some good way how to do TDD with the osc plugin <-> obs interaction.

- % Done changed from 0 to 70

There are 2 options we will use, the httpretty for mocking the server responses and unittest:mock for mocking entire function calls.

Examples are now in my github and it will be merged to our main repository later on.

#2 - 2014-02-12 09:28 - scarabeus_iv
- Status changed from New to Resolved
- % Done changed from 70 to 100

Closing as the tests are in place and we just need to extend the coverage.
