

openQA Project - action #14320

query status of bugs referenced as soft fails (asynchronously)

2016-10-19 10:13 - okurz

Status: New	Start date: 2016-10-20
Priority: Low	Due date:
Assignee:	% Done: 0%
Category: Feature requests	Estimated time: 0.00 hour
Target version: future	
Difficulty:	

Description
followup to [#14310](#)

User story

As a reviewer of tests with soft fails I want to show me status/assignee/priority of bugs shown in the softfail text thumbnails to get a direct indication without needing to check the bugtracker myself

acceptance criteria

- **AC1:** The soft failure with reference to a bug shows status/assignee/priority of the bug(s)
- **AC2:** No SUSE specific configuration is hardcoded in openQA source

tasks

- compare to how [openqa-review](#) does it with the '--query-issue-status' option
- find a way to query the SUSE bugzilla tracker without hardcoding that into openQA as it's not relevant if a user of openQA is not using bugzilla (or at least not our bugzilla URL)

further details

example of the soft failure report windows: https://openqa.suse.de/tests/620222#step/partitioning_lvm/3
