<b>Description</b>			
E-Mail from Libor about thet feature:			
I'd be happy to see the test described in FATE test case field integrated in openQA for 12 SP3 and beyond. This BTW applies to all modules (Legacy, Systems Management, Cloud, ...). From my POV the integration is low priority and can be done even after 12 SP3 GA.

I add it here with low priority, very detailed Testcase in Fate
