[sles][sled][functional][migration] test fails in wireshark

2017-02-10 03:17 - qkzhu

Status: Resolved	Start date: 2017-02-10
Priority: Normal	Due date:
Assignee: qkzhu	% Done: 0%
Category: Bugs in existing tests	Estimated time: 0.00 hour
Target version:	
Difficulty:	
Description	
Observation	
openQA test in scenario sle-12-SP3-Desktop-DVD-x86_64-migration_offline_sled11_sp4@64bit fails in wireshark	
This case failed at different steps: https://openqa.suse.de/tests/767468#step/wireshark/44 https://openqa.suse.de/tests/767474#step/wireshark/23 https://openqa.suse.de/tests/767475#step/wireshark/71 https://openqa.suse.de/tests/767473#step/wireshark/42	
Reproducible	
Fails since (at least) Build 0111 (current job)	
Expected result	
Last good: 0110 (or more recent)	
Further details	
Always latest result in this scenario: latest

History

#1 - 2017-02-22 03:28 - qkzhu

new failure: <https://openqa.suse.de/tests/785790#step/wireshark/71>

#2 - 2017-03-10 16:38 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: sdk+allpatterns
<http://openqa.suse.de/tests/808629>

#3 - 2017-03-10 16:41 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: sdk+allpatterns
<http://openqa.suse.de/tests/808629>

#4 - 2017-03-13 18:21 - okurz

- Subject changed from test fails in wireshark to [sled][migration] test fails in wireshark

#5 - 2017-03-28 06:01 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: sdk+allpatterns
<https://openqa.suse.de/tests/837208>

#6 - 2017-04-17 06:01 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: migration_offline_sled12sp2_fullupdate
<https://openqa.suse.de/tests/878122>

#7 - 2017-04-19 07:40 - qkzhu

- Assignee set to qkzhu

Previously this case was rather unstable, it often broke at different steps. Recently this case was blocked by poo#17896 which has been fixed now. And it only failed once at: <https://openqa.suse.de/tests/878122#step/wireshark/91>

I will try to add a wait_still_screen before:
170 send_key "alt-f4";
171 assert_screen "wireshark-fullscreen";
172 send_key "alt-f4";

#8 - 2017-04-19 08:45 - qkzhu

- Status changed from New to In Progress

PR: <https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/2757>

Verification test: <http://147.2.212.103/tests/557#>

Comments from the PR: There is new version (major version bump) of wireshark coming up, so I would suggest waiting for it to be released as this fix might be not needed.

Currently wireshark failed at the last few steps which is not critical, and it is not reproducible every time, so I will close this PR.

#10 - 2017-04-20 03:17 - qkzhu

- Has duplicate action #18260: [sled][x11regressions]test fails in wireshark added

#11 - 2017-04-25 09:59 - okurz

- Subject changed from [sled][migration] test fails in wireshark to [sles][sled][functional][migration] test fails in wireshark

<https://openqa.suse.de/tests/897474#step/wireshark/26> looks like this issue as well. A dialog is opened which is unexpected but there have been no recent changes in the wireshark test nor the product in this regard.

It looks the "eth0" checkbox somehow was not checked on, causing the "Start" button not clickable.

IMHO, possibly there's some space to improve in -

```
assert_and_click "wireshark-interfaces";  
send_key "spc";
```

```
assert_and_click "wireshark-interfaces";  
send_key "spc";
```

I will try to add a wait_still_screen before send_key 'spc'.
