

openSUSE Leap 42.3 Release - action #16842

check which packages turned into a fork

2017-02-13 13:21 - Inussel

Status:	Resolved	Start date:	2017-04-28
Priority:	Normal	Due date:	2017-06-09
Assignee:	favogt	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	Stabilized		
Description			
Some packages in 42.2 turned into a Fork after the lookup file for 42.3 was created. Update crawler would therefore continue to try to submit from the original location instead of 42.2.			
So the lookup file of 42.3 needs to be checked for forks. Maybe maintenance can help.

#5 - 2017-06-02 11:53 - favogt

- *Status changed from In Progress to Resolved*
- *% Done changed from 10 to 100*

Packages that need to be changed to 42.2:Update (or :Factory) as currently the 42.3 version is older than 42.2:Update:

dos2unix
python-Pygments
v4l-utils

The other packages only have changelog diffs, but as they now come from SLE that is to be expected.

#6 - 2017-06-06 09:23 - Inussel

New package in maintenance:

openSUSE:Leap:42.2:Update dtv-scan-tables

#7 - 2017-09-07 12:21 - Inussel

- *Copied to action #24878: check which packages turned into a fork added*
