History

#1 - 2017-02-13 13:24 - lnussel

- Copied from action #13880: enable openQA maintenance testing added

#2 - 2017-06-07 15:20 - lnussel

- Category deleted (Release Engineering)

- Assignee changed from lnussel to coolo

Coolo, could you take care of this please?

#3 - 2017-06-07 15:39 - coolo

I will align with Andreas, but yes

#4 - 2017-06-09 06:44 - coolo

It's enabled, but broken - the installation order changed

#5 - 2017-06-12 11:20 - coolo

- Assignee deleted (coolo)

I can't commit to do more than that

#6 - 2017-06-12 11:20 - coolo

the current failures look like this: https://openqa.opensuse.org/tests/418368#step/addon_products/3

#7 - 2017-06-20 12:58 - lnussel

- Assignee set to okurz

So, qa needs to take care of this now? Oliver?

#8 - 2017-06-21 08:08 - okurz

- Status changed from New to In Progress

riafarov will take care for now. He's no member of this progress project so I will keep the ticket assigned to me for now. lnussel can you add him?

#9 - 2017-06-21 08:51 - lnussel

- Assignee changed from okurz to riafarov

#10 - 2017-06-21 15:45 - riafarov

PR: https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/3118

#11 - 2017-06-22 09:01 - riafarov

- Status changed from In Progress to Feedback

#12 - 2017-06-23 12:59 - riafarov

- Assignee deleted (riafarov)

Tests are running fine:
https://openqa.opensuse.org/tests/overview?distri=opensuse&version=42.3&build=%3A505567.update-test-trivial.6846&groupid=48 There is one
failure which looks like product bug.

#13 - 2017-06-29 14:55 - lnussel

- Status changed from Feedback to Closed

- % Done changed from 0 to 100

the referenced error looks like the btrfs ENOSPACE issue so closing. thanks!

#14 - 2017-07-17 19:13 - coolo

- Status changed from Closed to New

https://openqa.opensuse.org/tests/overview?distri=opensuse&version=42.3&build=%3A510912.xorg-x11-server.6997&groupid=48 - now that yast
actually takes the update into consideration we need to fight random popups :(

#15 - 2017-07-17 20:37 - okurz

- Category set to QA

- Status changed from New to In Progress

- Assignee set to riafarov

this popup is something that is induced by the special maintenance update so we can just trust this key and go forward, right?

riafarov: You looked into this before. Would you like to give a hand again?

#16 - 2017-07-18 05:12 - coolo

we actually have needles for import-untrusted-gpg-key-598D0E63B3FD7E48 - but we used to be able to assert_screen in addon_products. Now we
get suprise popups :(

#17 - 2017-07-18 06:45 - lnussel

Since this popup *must* appear when adding the addon repo a separate step with assert_screen could be introduced.

#18 - 2017-07-18 07:07 - riafarov

I'll take care of it if it's not super urgent. Should be done by the end of the day.

#19 - 2017-07-18 09:36 - riafarov

PR with fix for this particular issue: https://github.com/os-autoinst/os-autoinst-distri-opensuse/pull/3311

#20 - 2017-07-18 11:31 - riafarov

- Status changed from In Progress to Feedback

#21 - 2017-07-19 08:19 - riafarov

- Status changed from Feedback to Resolved

Tests work fine (except firefox_audio). Let me know if I can help with anything else.

#22 - 2017-09-07 12:26 - lnussel

- Copied to action #25032: enable openQA maintenance testing added
