- Status changed from *New* to *In Progress*

As can be seen here: <https://openqa.suse.de/tests/790722#step/login/11>, the system is using German keyboard, because lvm.xml (the autoyast profile) from aytests RPM package is using: <language>de\_DE</language>. This won't work in openQA.

Will remove the test suite from OSD's 'Regression: Autoyast' dev job group.
