

openQA Tests - action #19152

[aarch64] handle_uefi_boot_disk_workaround should use ARCH variable not MACHINE

2017-05-12 12:23 - rpalethorpe

Status:	Resolved	Start date:	2017-05-12
Priority:	Normal	Due date:	
Assignee:	rpalethorpe	% Done:	0%
Category:	Enhancement to existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
tests with aarch64-virtio set as the machine can not boot: https://openqa.suse.de/tests/932275#			
probably because of openqabasetest.pm line ~317.

I chose MACHINE because the architecture is not to blame in general. How about

```
- check_var('MACHINE', 'aarch64')
+ get_var('MACHINE') =~ /aarch64/
```

It seems to work, really https://bugzilla.novell.com/show_bug.cgi?id=1022064 should be taken care of, but this will do for now.
