[s390][functional] consoletest_setup types password to early

2017-06-02 07:31 - nicksinger

Status:	Rejected	Start date:	2017-06-02
Priority:	High	Due date:	
Assignee:	mgriessmeier	% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
Observation			
Several consoletest_setup modules fail because openQA is unable to login into the system. Examples are: http://openqa.suse.de/tests/975862#step/consoletest_setup/34 http://openqa.suse.de/tests/975843#step/consoletest_setup/34 http://openqa.suse.de/tests/975829#step/consoletest_setup/34 http://openqa.suse.de/tests/975853#step/consoletest_setup/34 http://openqa.suse.de/tests/975858#step/consoletest_setup/34			
There you can always see part of the password before the actual password prompt appears.			
Reproducible			
Fails since (at least) Build 0406 most likely because some recent changes cooloo introduced to the existing login-code. Workaround/Fix was introduced by mgriessmeier but seems to rely too much on system performance. Maybe an assert_screen for the PW-prompt before typing the password can fix that problem			
Expected result			
openQA should wait to type the password until the password prompt appears. Last good: 0405 (or more recent)			
Further details			
Always latest result in this scenario: latest
