

## openQA Project - action #19702

### Share directory is not created upon openQA-worker package install and worker does not start even if caching is enabled

2017-06-09 13:52 - szarate

<b>Status:</b>	New	<b>Start date:</b>	2017-06-08
<b>Priority:</b>	Low	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Feature requests	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	future		
<b>Difficulty:</b>			
<b>Description</b>			
After a fresh install of a worker, if share directory is not created, worker shows the following message (caching was enabled here):			
<pre>Jun 09 15:44:39 seattle15 systemd[1]: Starting openQA Worker #2... Jun 09 15:44:39 seattle15 systemd[1]: Started openQA Worker #2. Jun 09 15:44:40 seattle15 worker[13839]: [ERROR] Can not find working directory for host http://deimos.suse.de. Ignoring host Jun 09 15:44:40 seattle15 worker[13839]: [INFO] CACHE: caching is enabled, setting up /var/lib/openqa/cache/deimos.suse.de</pre>			
After creating <code>/var/lib/openqa/share</code> by hand, worker can work normally.
