Target version:			
Difficulty:			

Description

Observation

openQA test in scenario sle-12-SP2-Desktop-DVD-Updates-x86_64-qam-regression-gnome@64bit fails in [change_password](#)

Reproducible

Fails since (at least) Build [20170612-5](#)

Expected result

Last good: [20170612-2](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

History

#1 - 2017-06-13 11:27 - dasantiago

This started to fail at the same time as the <https://progress.opensuse.org/issues/19782> appeared. This might suggest some kind of connection between them.

Needs a more in depth analysis.
