### History

#### #1 - 10/07/2017 07:01 am - zluo

will take a look at it.

#### #2 - 12/07/2017 08:34 am - okurz

- Blocks action #19922: [sle][functional][opensuse]Harmonize extratests/yast2_ui tests for openSUSE and SLE added

#### #3 - 12/07/2017 01:58 pm - zluo

- Status changed from New to Feedback
- Priority changed from Normal to Low

checked the latest job, no issue at all:

https://openqa.opensuse.org/tests/latest?flavor=DVD&distri=opensuse&machine=64bit&version=42.3&test=yast2_ui&arch=x64#step/yast2_datetime/10

checked history for test results in last 2 month, only one time failed. I don't think this is an issue which requires any action from my side.

#### #4 - 19/07/2017 02:31 pm - riafarov

20/03/2020
Test still fails on leap, I'll take care of it.

#5 - 20/07/2017 09:36 am - riafarov
- Status changed from In Progress to Feedback
- Assignee changed from zluo to riafarov

Problem was that pop-up needle was removed from repo. I have reintroduced it here:
https://github.com/os-autoinst/os-autoinst-needles-opensuse/commit/d980b00c692c62647553582eb1392a04052d8820
Underlying issue is that this popup is not always there, so it may happen that it's not used for 2 weeks, especially if there are no triggers for the job.
@okurz: Please, either resolve the issue, or let me know if we want to do any extra activities here.

#6 - 20/07/2017 10:42 am - riafarov
- Subject changed from test fails in yast2_datetime to [opensuse][functional] test fails in yast2_datetime

#7 - 24/07/2017 08:47 am - okurz
- Status changed from Feedback to Resolved

I guess we are good here. Most likely we will just have to revisit when the next leap version will be developed.
