### History

#### #1 - 2017-08-01 09:54 - Inussel

- Assignee set to okurz

Oliver, could you take care of this? GM is already tagged.

#### #2 - 2017-08-01 09:54 - Inussel

- Due date changed from 2017-07-28 to 2017-08-04

#### #3 - 2017-08-01 19:46 - okurz

Sure, I can do this. I wonder about the job group. We added support for version-specific tags so that we can cover more than one version in one job group. I replaced your tag with [tag:42.3-0331:important:GM](#) so we can also rename the job group to just "openSUSE Leap" and add openSUSE Leap 15 there later. WDYT?

#### #4 - 2017-08-10 14:10 - Inussel

we talked about this on the release party. I don't really mind but don't see much value either. copying to a new job group can be scripted so not much of an issue.

#### #5 - 2017-08-12 13:43 - okurz

- Status changed from New to In Progress

Ok, I moved the groups [openSUSE Leap 42.3](#), [openSUSE Leap 42.3 PowerPC](#), [openSUSE Leap 42.3 AArch64](#) to the "old" parent group and reduced the quota a bit. A version-agnostic job group is an option for later, e.g. dot-releases of Leap 15 and potentially following ones when we don't have a backward moving version jump ;-P I will review "fixed" assets on o3.

#### #6 - 2017-08-15 21:45 - okurz

- Status changed from In Progress to Resolved

#### #7 - 2017-09-07 12:27 - Inussel

- Copied to action #25090: openQA cleanup added
