Category: Servers hosted in NBG
Target version:

Description
add ipv6 to scar/scratch

History
#1 - 03/01/2018 11:23 am - tampakrap
- Status changed from New to Closed

already done some time ago by lars

#2 - 03/01/2018 11:25 am - tampakrap
- Status changed from Closed to In Progress
- Private changed from Yes to No

ah no it wasn't, I confused it with the proxies. I am doing it now

#3 - 03/01/2018 11:39 am - tampakrap
- Status changed from In Progress to Closed

ipv6 added 2001:67c:2178:8::28 someone please test it and let me know if it works

#4 - 03/01/2018 12:16 pm - pjessen

It's not working from here. I can't ping the address either.

#5 - 03/01/2018 03:53 pm - pjessen

I can ping the address now, but I'm not getting a VPN.

#6 - 03/01/2018 03:59 pm - tampakrap
- Status changed from Closed to In Progress

I'll check firewall

05/04/2020 1/2
Still no vpn on ipv6.

I raised a ticket with MF-IT to open the ports

so MF-IT opened the ports quite some time ago, but there is a possibility that SUSE-IT needs to open ports as well on some firewall

All done in NUE and PRV.
