<b>Target version:</b>			
<b>Difficulty:</b>			
<b>Description</b>			
<p>During my work on updating the firefox regression test suite, I discovered that the UnMHT addon for Firefox is no longer supported on Firefox versions that have multiprocess.</p> <p>The UnMHT addon is an active project and is still being developed, however, as there is currently no ETA for the update, I suggest temporarily removing the firefox_mhtml module from main.pm</p> <p>Ref: <a href="https://addons.mozilla.org/en-US/firefox/addon/unmht/">https://addons.mozilla.org/en-US/firefox/addon/unmht/</a></p> <p>I've tried to search for an alternative but didn't find anything useful.</p> <p>Of course, open to suggestions in case temporary disabling the module is not desired.</p>			
<b>Observation</b>			
<p>openQA test in scenario sle-12-SP2-Desktop-DVD-Updates-x86_64-qam-regression-firefox@64bit fails in <a href="#">firefox_mhtml</a></p>			
<b>Expected result</b>			
<p>Last good: <a href="#">20170808-2</a> (or more recent)</p>			

#### History

##### #1 - 2017-08-11 13:32 - vsvecova

- Status changed from New to In Progress

- Assignee set to vsvecova

##### #2 - 2017-09-01 16:46 - vsvecova

- Status changed from In Progress to Closed

The issue seems to have subsided, therefore closing this one, as removing the firefox\_mhtml module is no longer necessary.
