Integrate classes autoyast profile test in openQA

2017-08-24 08:59 - riafarov

Status:	In Progress	Start date:	2021-07-12
Priority:	Normal	Due date:	
Assignee:	oorlov	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	Current		
Description			
Motivation			
<p>AY support splitting profile into multiple xml files what simplifies maintenance and readability. In SLE 12 SP3 we have missed the regression and this flow is broken there. This functionality is not covered by openQA, whereas there is jenkins job which is executed as a part of AY CI.</p> <p>See https://documentation.suse.com/sles/15-SP2/single-html/SLES-autoyast/#rulesandclass</p> <p>We should use classes where we can validate that they were used. For example, we can use mandatory sections, like registration for online medium as installation will fail without it, or we can validate exact setup in the SUT if e.g. propose custom partitioning.</p>			
Acceptance criteria			
<ul style="list-style-type: none">• AC1: Class based AY profile installation is verified for SLE 15 and optionally for openSUSE			
Further details			
<p>We need to enable this test in openQA, it may need some changes in env, as test uses multiple files for installation.</p> <p>Description from trello card: https://bugzilla.suse.com/show_bug.cgi?id=105148</p> <p>Review</p> <p>Evaluation of classes/rules has been called twice due to self-update without initialization.</p> <p>SP3: yast/yast-autoinstallation: Pull Request 323 Submitted to SUSE:SLE-12-SP3:Update id 137252</p> <p>Master: yast/yast-autoinstallation: Pull Request 324</p> <p>SP2: Tested, but the error has not happened there.</p> <p>Testcase: https://github.com/yast/aytests-tests/pull/98/files</p> <p>yast/aytests-tests: Pull Request 99</p> <p>Patch for handling classes in AY-testsuite: yast/autoyast-integration-test: Pull Request 140</p>			
Subtasks:			
action # 95392: Expand functionality of prepare_profile module			Closed
action # 97871: Implement the rules&classes including registration			Resolved
action # 97874: Implement the rules&classes adapting AutoYAST profile for openSUSE			Resolved
Related issues:
