Test updates released into openSUSE:Leap:15.0:Update, patchinfo tested.

Another round left in:

openSUSE:Maintenance:Test:Leap\_15.0 -> <http://download.opensuse.org/update/leap/15.0-test/>

Note that the publish trigger seems to be missing for:

openSUSE:Leap:15.0:Update -> <http://download.opensuse.org/update/leap/15.0/>

This needs to be configured by an OBS admin
