

## Travel Support and merchandising mgmt - action #250

### Email notifications for the whole request process

2013-03-27 11:08 - ancorgs

<b>Status:</b>	Closed	<b>Start date:</b>	2013-03-27
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	ancorgs	<b>% Done:</b>	100%
<b>Category:</b>	Development	<b>Estimated time:</b>	8.00 hours
<b>Target version:</b>	First version		
<b>Description</b>			
Every step of the process should be notified to involved users. The first implementation will be email based. Hermes integration will come later.			
Tests NEEDED			

### History

#### #1 - 2013-04-03 18:36 - ancorgs

- % Done changed from 0 to 10

- Status changed from New to In Progress

Partial implementation of a generic mailer. Useful for both requests and reimbursements.

#### #2 - 2013-04-04 15:07 - ancorgs

- % Done changed from 10 to 70

It's done in a very generic way so it also implements notifications for reimbursements (and future workflows) and most of the job for reminders.

A full refactoring of Request and Reimbursement models was accomplished so now we have a HasState mixin which takes care of notifications, logging changes, etc.

Tests and documentation are on the works.

#### #3 - 2013-04-05 13:01 - ancorgs

The usage of delayed\_job can now be disabled with a setting in site.yml

#### #4 - 2013-04-05 15:11 - ancorgs

- % Done changed from 70 to 100

- Status changed from In Progress to Closed

Tests written. Closing.
