**Description**

#### Observation

openQA test in scenario sle-12-SP3-Desktop-DVD-Updates-x86\_64-qam-allpatterns+sdk@64bit fails in [glxgears](#)

#### Reproducible

Fails since (at least) Build [20171018-1](#) (current job)

#### Expected result

Last good: [20171017-1](#) (or more recent)

#### Further details

Always latest result in this scenario: [latest](#)

#### History

##### #1 - 2017-10-19 07:37 - osukup

- Subject changed from test fails in glxgears - pkcon timeout to [qam] test fails in glxgears - pkcon timeout

##### #2 - 2017-10-19 07:45 - okurz

hm, "pkcon timeout" should be considered a product issue but most likely it will never get fixed. Instead pkcon should retry and I thought that it actually does already. So I guess retry is not working.

##### #3 - 2017-11-06 07:07 - okurz

This is an autogenerated message for openQA integration by the openqa\_review script:

This bug is still referenced in a failing openQA test: qam-allpatterns+we  
<https://openqa.suse.de/tests/1242692>
