- Category changed from Enhancement to existing tests to New test

Yes, good idea. This is actually "new test" as the test case is "go back and forth". Not any test we have. Of course, it would be interlinked with existing openQA test code.

- Subject changed from [sles][functional] create installation workflow which covers steps backward and changing system role to [sle][functional] create installation workflow which covers steps backward and changing system role

- Target version set to Milestone 15

#3 - 2018-03-14 06:45 - okurz

- Target version changed from Milestone 15 to Milestone 17

Seems like neither in M15 nor in M16 we do have enough capacity for new tests so we need to postpone to later.
