

openSUSE Leap 15.0 - action #29565

enable -fstack-clash-protection

2017-12-18 15:42 - Inussel

Status:	Closed	Start date:	2017-12-18
Priority:	Normal	Due date:	2018-01-05
Assignee:	jberry	% Done:	100%
Category:	Release Engineering	Estimated time:	0.00 hour
Target version:	Working		
Description			
Factory enabled -fstack-clash-protection, should have that in leap prjconf too?			

History

#1 - 2018-01-05 12:24 - Inussel

- Due date changed from 2017-12-22 to 2018-01-05
- Assignee changed from mlin7442 to boombatower
- % Done changed from 0 to 80

Was tested in staging.

Please append -fstack-clash-protection to generic Optflags in prjconf of 15.0 and trigger a rebuild of all packages (osc rebuild openSUSE:Leap:15.0) as discussed.

#2 - 2018-01-08 05:19 - boombatower

I did not see this until now as this is attached to my personal account, unlike github and jberry OBS user. As such ran the rebuilt per what I heard on Thursday. Since the prjconf change was not made this will need to be done again.

It would be preferred if we switch the account that has access to p.o.o.

#3 - 2018-01-08 08:37 - Inussel

- Assignee changed from boombatower to jberry

lc. changed to jberry.

#4 - 2018-01-09 02:30 - jberry

- % Done changed from 80 to 90

Added as requested and ran osc rebuild --all openSUSE:Leap:15.0.

#5 - 2018-01-09 07:38 - Inussel

- Status changed from New to Closed
- % Done changed from 90 to 100
