

openQA Tests - action #30237

[hpc] single package tests for HPC SLE15 should be enabled on ARM builds

2018-01-12 09:34 - sebchlad

Status:	Resolved	Start date:	2018-01-12
Priority:	High	Due date:	
Assignee:	mgriessmeier	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Difficulty:			
Description			
This task should be handled after polishing some current tests. Make not much sense - as Anton rightly suggested - to enable broken tests for ARM.			

History

#2 - 2018-01-12 09:37 - sebchlad

- Status changed from New to Workable

We could consider this workable. However as stated in the description it makes not much sense to work on this now.

#3 - 2018-01-19 09:14 - asmorodskyi

- Assignee set to mgriessmeier

- Priority changed from Normal to High

#4 - 2018-01-19 13:21 - mgriessmeier

working on kimball:

<http://kimball.arch.suse.de/tests/282>

I will add them to o.s.d and trigger them accordingly

#5 - 2018-01-22 13:03 - mgriessmeier

- Status changed from Workable to In Progress

aarch64 works now the same as x86_64, failing in the same steps (one bsc and one poo)

<https://openqa.suse.de/tests/overview?version=15&distri=sle&groupid=130&build=422.1>

resolved

#6 - 2018-01-22 13:03 - mgriessmeier

- Status changed from In Progress to Resolved

#8 - 2018-01-23 10:40 - mgriessmeier

hmmm... actually I closed this, but only did the multimachine tests

so conman, powerman and hwloc is still missing, I've created followup ticket <https://progress.opensuse.org/issues/30697> to track this
