Difficulty:			
Description			
Observation			
openQA test in scenario sle-15-Installer-DVD-x86_64-desktopapps-gnome@64bit-virtio-vga fails in change_password			
I can't reproduce this issue manually so we should increase the waiting time of assert_screen 'generic-desktop'			

History

#1 - 2018-02-06 07:10 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: desktopapps-gnome
<https://openqa.suse.de/tests/1440792>

#2 - 2018-03-02 05:11 - qkzhu

We should update the needles since SLE15 is using a new theme and wallpaper.

Hi Grace,

Would you take care of this please. Thanks!

#4 - 2018-03-15 08:32 - GraceWang

- Status changed from New to In Progress

#5 - 2018-03-16 06:59 - GraceWang

With in the same test suite desktopapps-gnome, test case "gnome_classic_switch" also failed due to the introduction of new theme/ wallpaper and font change.

See http://10.67.18.138/tests/48#step/gnome_classic_switch/5 for details.

Since the two failed test cases are in one test suite, I will fix them together.

#6 - 2018-03-16 07:02 - GraceWang

- Subject changed from [sle15][desktop]test fails in change_password to [sle15][desktop]test fails in change_password and gnome_classic_switch

I am changing the subject to reflect the latest test results.

#7 - 2018-03-16 09:23 - GraceWang

- % Done changed from 0 to 80

PR: https://gitlab.suse.de/openqa/os-autoinst-needles-sles/merge_requests/769

Validation Run: <http://10.67.18.138/tests/64#>

#8 - 2018-03-23 06:39 - GraceWang

- Status changed from *In Progress* to *Resolved*

- % Done changed from 80 to 100

Verified run on osd:

<https://openqa.suse.de/tests/1564213>

#9 - 2018-04-13 05:14 - qkzhu

[change_password](#) failed, but it seems like a performance issue, let's wait and see if it could be reproduced.

#10 - 2018-05-03 13:12 - okurz

This is an autogenerated message for openQA integration by the openqa_review script:

This bug is still referenced in a failing openQA test: wayland-desktopapps-gnome

https://openqa.suse.de/tests/1679953#step/change_password/53 looks like a simple outdated needle, created a new one

"change_password-root-gnome-terminal-20180511" with a match level of 80% in both boxes and retriggered latest job:

<https://openqa.suse.de/tests/1682589>
