Target version:			
Difficulty:			
Description			
Yesterday we enabled multimachine worker setup for aarch64 (openqaworker-arm-{1..3} - openqaworker-arm-2 has "tap" WORKER_CLASS already configured), it would be nice to have support_server image for aarch64 based on SLE12SP3.

I have working aarch64 support_server image based on SLE12SP3 for HA, you can find it here:

<https://openqa.suse.de/tests/1514722/asset/hdd/sle-ha-supportserver-aarch64.qcow2>

I was able to generate it some weeks ago, but on my openQA test lab, was not possible on o.s.d. last time I tried :-)

#3 - 2018-03-06 10:29 - coolo

- Project changed from openQA Project to openQA Tests

#4 - 2018-03-08 10:48 - asmorodskyi

there is already hdd/fixed/supportserver-aarch64.qcow2 but currently it suffer from <https://progress.opensuse.org/issues/32707>

#5 - 2018-03-09 13:44 - okurz

- Subject changed from Prepare support_server image based on SLE12SP3 for aarch64 for multimachine tests to [aarch64]Prepare support_server image based on SLE12SP3 for aarch64 for multimachine tests

- Category set to New test

#6 - 2018-03-09 13:49 - okurz

- Related to action #32707: [aarch64][supportserver][hpc]test fails in login on ARM because of too many needles added

#7 - 2018-03-14 09:45 - thehejik

- Status changed from New to Resolved

- Assignee changed from thehejik to asmorodskyi

- % Done changed from 0 to 100

asmorodskyi did the image openqa_support_server_sles12sp3.aarch64.qcow2 and it is available on osd. Closing
