

openQA Tests - action #33157

coordination # 32527 (Resolved): [sle][functional][epic][yast][y] test fails in partitioning_warnings - partitioning_warnings was not adapted for storage-ng (was: after this send_key 'alt - y' seems to be not working)

[sle][functional][yast][y][medium] Check warning for missing PReP (ppc), EFI (aarch64) or Bios Boot (x86_64+GPT)

2018-03-13 14:21 - SLindoMansilla

Status:	Resolved	Start date:	2018-03-13
Priority:	Normal	Due date:	2018-05-22
Assignee:	riafarov	% Done:	0%
Category:	New test	Estimated time:	0.00 hour
Target version:	Milestone 16		
Difficulty:	medium		

Description

Motivation

The test suite partitioning_warnings was not properly set for checking warnings in a solid way. It hasn't checked for missing /boot/zipl nor PReP, but it checked for missing EFI.

Also on GPT tables using x86 architecture, an extra partition is needed with ID *BIOS Boot Partition*.

Acceptance criteria

- **AC:** Add coverage of warnings for different required missing partitions.

Tasks

1. Fix test module *installation/partitioning_warnings.pm*

History
