[QAM][CAASP] Workaround for bnc#1085677

2018-03-16 15:05 - pgeorgiadis

Status:	Resolved	Start date:	2018-03-16
Priority:	Normal	Due date:	
Assignee:	mkravec	% Done:	0%
Category:	Bugs in existing tests	Estimated time:	0.00 hour
Target version:			
Difficulty:			

Description

Observation

openQA test in scenario caasp-2.0-CaaSP-DVD-Incidents-x86_64-QAM-CaaSP-controller@qam-caasp_x86_64 fails in [stack_update](#)

Reproducible

Fails since (at least) Build [:6868:grub2.1521115306](#) (current job)

Expected result

Last good: [:6812:rdma-core.1521115525](#) (or more recent)

Further details

Always latest result in this scenario: [latest](#)

While this is filed as bug, at the same time openQA should mark this as a soft-fail and continue/proceed with testing. To do that, I assume we need to wait a little bit longer until the 'UPDATE ADMIN NODE' button appears on the screen. So, let's increase the timeout for this one.
