### History

#### #1 - 2018-04-10 16:42 - okurz

didn't we have another ticket for the detection of this step already? Weird. I suggest to schedule this ticket in a month from now to be able to move forward with something non-SLE15 related. WDYT?

Works fine. Feel free to reopen if you see any issues. Here is the run which would fail as we miss bios-boot screen:
